Xiamen QiBing Cold Chain Technology Co., Ltd

Mob: +86 13959221150

Address: No. 707, Hu'an Road, High-tech Park, Huli District, Xiamen City, Fujian, China

Your dedicated butler for cold chain services

## Company Introduction

Xiamen Qibing Cold Chain Technology Co., Ltd. is an integrative high-tech enterprise of research and development, production and marketing. Our company has accumulated R&D and manufacturing experience in the cold storage industry, and has profound achievements. The self-produced "cooler, biosafety transport box, carton ice and other products" have filled a number of gaps in the cold chain transportation process in China, and have been widely recognized by the market.

At present, it is widely used in major vaccine manufacturers/pharmaceutical companies, provincial and municipal disease control, blood centers, major laboratories, animal husbandry bureaus, laboratories and other units. The company's self-developed cold storage materials have passed safety tests in latent heat and temperature controllability, passed the identification of cargo transportation conditions, and are in a leading position in the domestic market and have a number of product patents.

Qi Bing cold chain has always been in line with the business philosophy of "products make customers rest assured, service makes customers satisfied", to provide our customers with comprehensive, professional and customized cold chain solutions and series of products.

# Ice box product advantages

## Product Type Diversity

We have a mature industrial chain,our product is corrosion-resistant and winter-resistant, strong and compressive.It is widely used in high-intensity logistics turnover, transportation and distribution of low-temperature products, safe and reliable.

## Rigorous testing

Box body and box cap perfectly fit,no being leakage phenomenon,we have obtain international SGS,REACH,CDC,MSDS and IOSR.

## Product material

No using secondary recycled materials;all external boxes are made of 100% raw rice HDPE material.Can come into direct contact with food and internal materials are non-toxic and harmless.

## Product customization

You can customize exclusive LOGO and print exclusive colors,according to you needs choose personalized accessories,such as different cool storage materials  
Cool storage materials with different phase change points

## Choose us for a reason

The company's self-developed cold storage materials have passed safety tests in latent heat and temperature controllability, passed the identification of cargo transportation conditions, and are in a leading position in the domestic market and have a number of product patents.

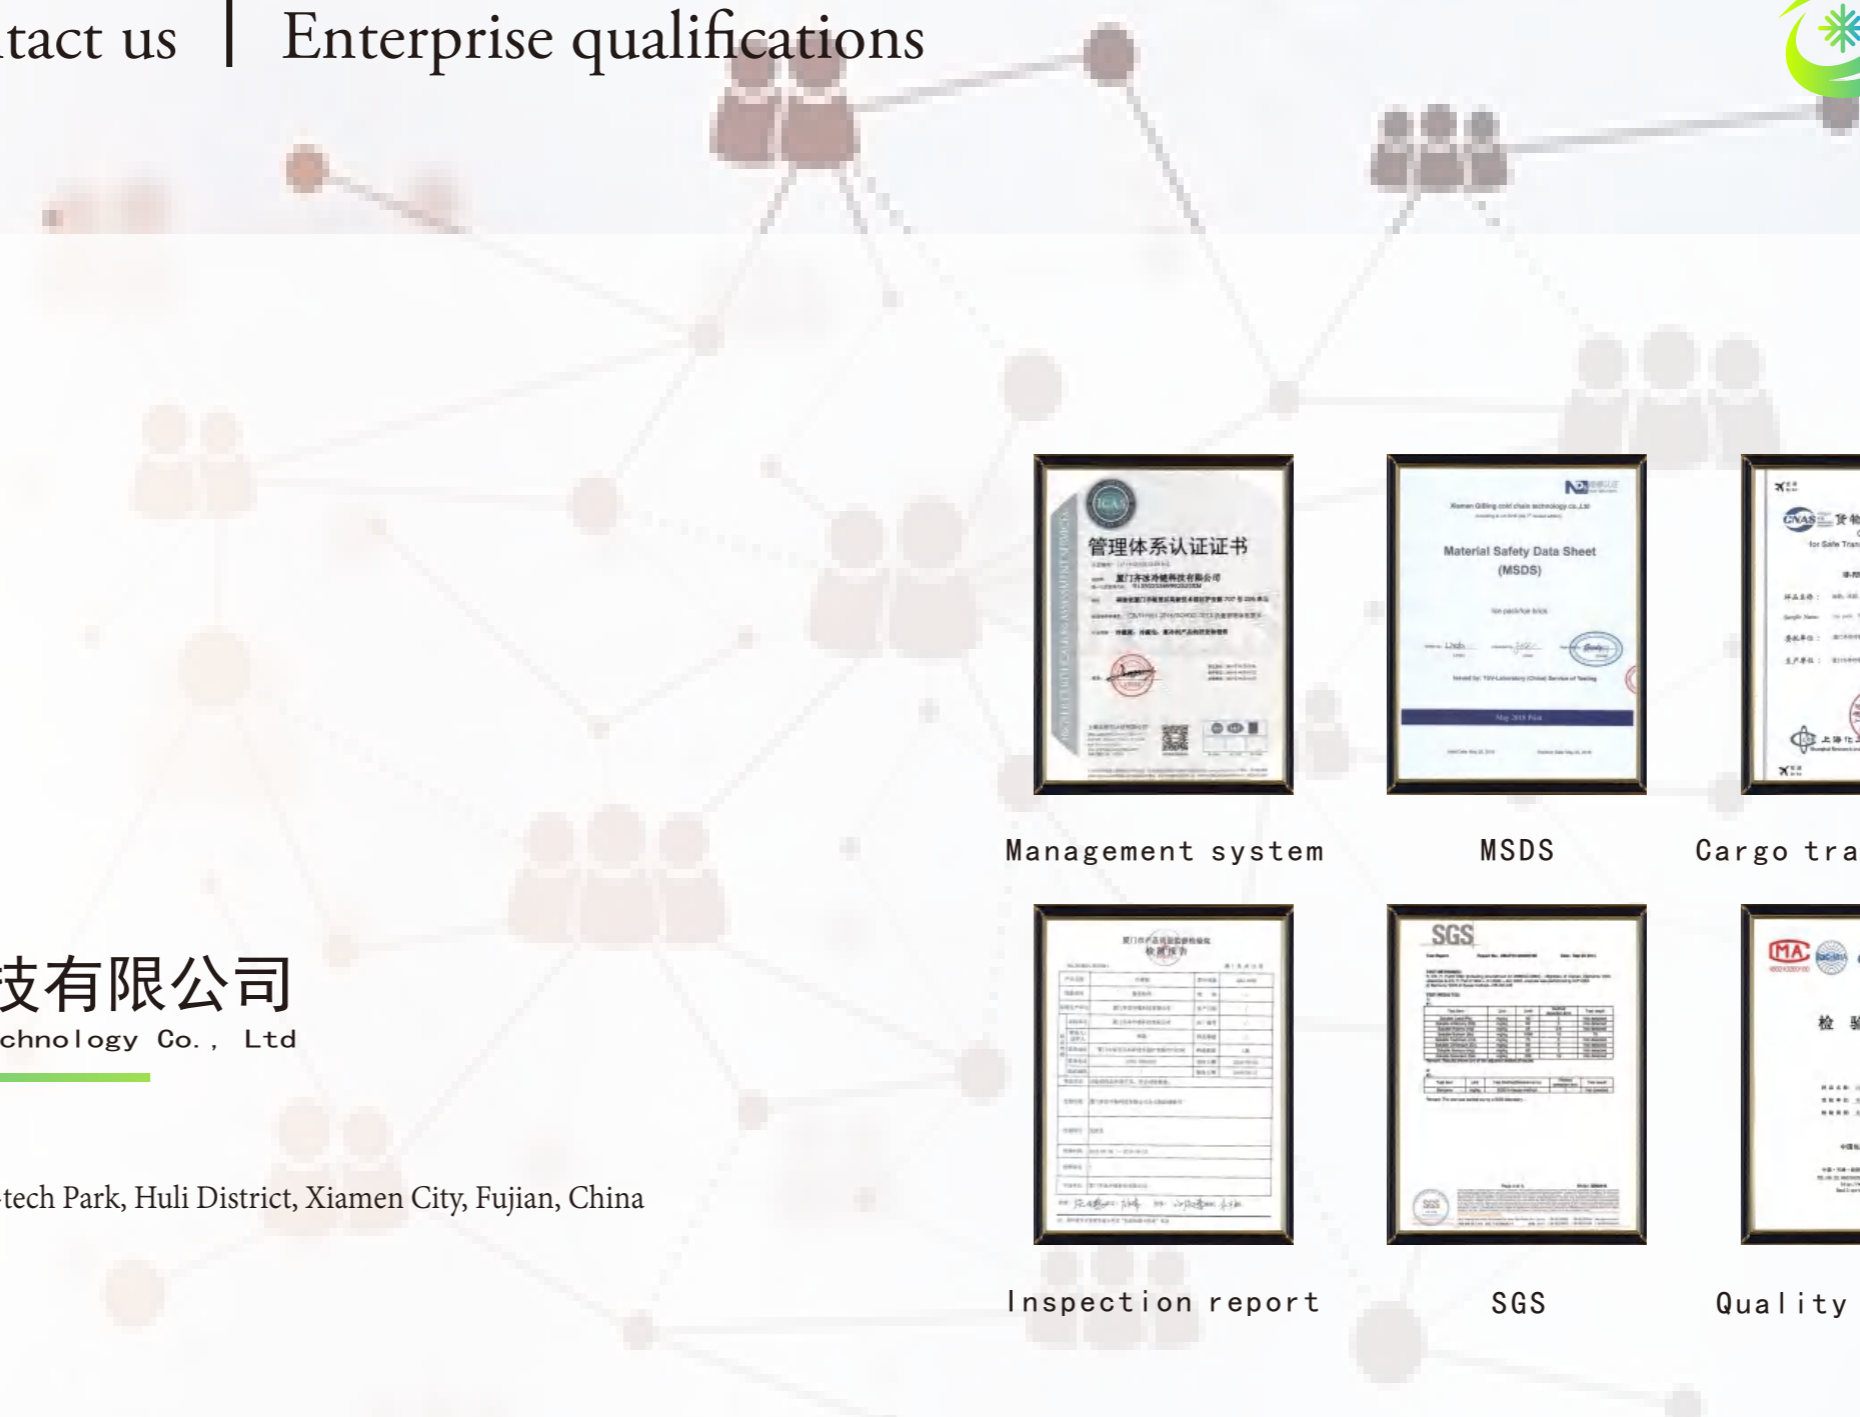

Qi Bing cold chain has always been in line with the business philosophy of "products make customers rest assured, service makes customers satisfied", to provide our customers with comprehensive, professional and customized cold chain solutions and series of products.
